Douglas A. Habig Chairman of the Board

Dear SVB&T Corporation Shareholder:

As indicated in our first Shareholder letter this year, SVB&T
Corporation posted another record year in 2016 and
significantly added to the franchise value of the
organization. We are extremely pleased with the
financial performance that Springs Valley Bank &
Trust was able to achieve as a result of a true
team effort by our staff, management and
the Board. Springs Valley continues
to focus on consistent financial
performance, quality organic
asset growth, asset quality
improvement, and income
diversification.

RECAP OF RECORD 2016 FINANCIAL PERFORMANCE

- In 2016, audited earnings of \$3.0 Million or \$5.31 basic earnings per share were posted. This is the highest in the Bank's history, and translates to a Return on Average Assets (ROAA) of 0.89%.
- The year-end Stock Valuation Report was received and the results are a very encouraging 40.0% increase from \$50.00 per share market value appraisal (MVA) to \$70.00 per share MVA. This validates the work that has been done over the past year and represents a significant increase in Shareholder value.
- In late 2016, the Board approved and paid a dividend for 2016 of \$0.75 per share, representing a 1.50% return based upon the 2015 year-end stock value of \$50.00.

THE YEAR IN REVIEW...THE YEAR AHEAD

In addition to growing the balance sheet organically, your Board and Management Team are intently focused on investigating all avenues for profitable growth as well as income diversification to reduce margin dependency. Specifically, we are committed to growing core deposits to fund balance sheet growth long-term. Short-term, however, we are deploying strategies designed to reduce balance sheet funding pressures (additional focus on ramping up sold mortgages along with generating government guaranteed commercial loan sales). We continue to grow sold mortgage fee income and our home equity loan portfolio through an aggressive marketing plan supported by boots-on-the-ground lender performance. Though competition remains persistent for quality personal and commercial banking relationships, we continue to record more successes than failures in head-to-head opportunities. We remain dedicated to finding innovative ways to improve our competitive standing in all markets we serve and to adding new markets with potential. To that end, the Springs Valley Board and Management Team have a number of notable achievements to share with you from 2016 and a few new initiatives planned for 2017:

- In 2016 the Bank achieved net loan growth in our local markets of \$25.4 Million or 10.27%, and core deposit growth of \$20.3 Million or 16.21%.
- We continued to emphasize stronger credit administration, strong, full-relationship commercial loan growth, and enhanced Agricultural lending focus with the addition of a seasoned Agricultural Relationship Manager.

- The Trust Department surpassed \$450M in assets in 2016 and was a key contributor to the Total Bank enterprise via strong non-interest income.
- relationshipRewards was the marquee project for the Bank in 2016 and called for migrating all 6,000 checking account relationships into one of four customized DDA solutions based upon the saving and spending preferences of those customers. This suite of DDAs has also been successful in attracting new deposits into the Bank and creating fee income opportunities.
- Two new Board Members were added in 2016 as a part of our proactive management of Board Succession Planning with a focus on adding diversity both in terms of demographics and skillset.
- Springs Valley Bank established a Captive Insurance Subsidiary owned by our Holding Company, which will further help SVB&T Corporation manage capital and profitability.
- In 2016 the Bank completed a major overhaul of our Risk Department, naming a Risk Officer and adding two compliance analysts. An enhanced BSA Program was brought on-line and dedicated resources were applied.
- We successfully completed several technology projects (CardValet firewall infrastructure; Data-Comm security monitoring; Fiserv Risk Office; Apple Pay; etc.), and strategically added a seasoned IT member to our staff.
- For 2017, a continued heavy investment in digital technology is planned. On the drawing board is a Marketing Customer Information File System (MCIF) to help better identify and serve our customers' financial needs; a basic Customer Relationship Management (CRM) product to assist us with recording and reporting our business development efforts; Online Chat (Link-Live); Instant Issue Debit Cards; and a Mobile Business Platform for business owners on the go. Finally, an enhanced website and an upgrade of the online banking system to include full integration with the Bank's credit card offering is slated for the 4th quarter.
- For 2017, we will continue to implement recommended process improvements, based on a third-party review of our Accounting and Loan Production Departments back in 2015.
- The Stakeholder Engagement Initiative we began in 2016 is expected to continue and expand in 2017. In addition to more frequent and timely communications, we are committed to an inviting Annual Meeting venue and program at the French Lick Resort. We hope you will join us as we share 2016 performance and 2017 plans!

The Directors, officers and employees of Springs Valley Bank & Trust Company remain committed to building shareholder value by all strategic means which are supported by a solid business plan. While we do not embrace the rhetoric that a community bank must be \$1B in size by a certain point in time, we do hold to the philosophy that size does matter in pursuit of long-term viability and franchise value — that is to say, economy of scale is important and must be aggressively pursued in keeping with our pledge to maximize shareholder value in any and all forms. Rest assured, your Board and Management will continue to strive to provide you, our Shareholders, with a nice mix of equity, income and improved liquidity.
